

VISION

EcoConnect Dining envisions a world where every meal supports a sustainable future. By bridging food, travel, and technology, we aim to become the go to global platform for eco-conscious choices helping people reduce their environmental footprint, support local communities, and make sustainability an effortless part of everyday life.

MISSION

Our mission is to make sustainable dining simple, accessible, and rewarding.

Through our AI powered platform, we connect travelers and local residents with verified eco friendly restaurants and producers, provide tools to track environmental impact, and build a global community where every choice of meal contributes to a healthier planet.

ABOUT US

EcoConnect Dining is a Canadian startup redefining the way people discover and enjoy sustainable dining. Our platform connects eco-conscious travelers and local residents with verified green restaurants, cafés, and food producers worldwide.

Founded on the belief that every meal can shape a better future, we combine technology, sustainability, and cultural exploration to create a seamless experience where responsible choices become simple and rewarding.

By supporting eco-certified restaurants and linking them to local producers, we not only reduce environmental impact but also strengthen local economies and communities.

Our mission is clear: to make sustainable dining accessible, enjoyable, and impactful for people, for the planet, and for future generations.

CORE VALUES

Sustainability

We prioritize eco-friendly practices that reduce environmental impact and promote responsible dining.

Community

We support local producers, restaurants, and residents building stronger, more resilient communities.

Innovation

We harness technology and AI to create smarter, seamless, and impactful dining and travel experiences.

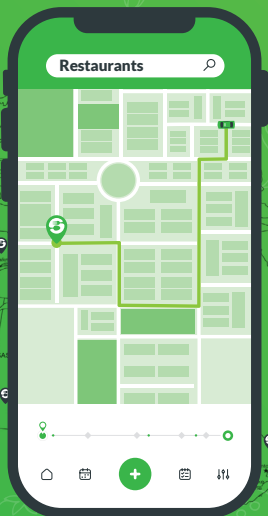

Transparency

We provide clear, reliable information so users can make confident and informed choices.

Global Connection

Food is a universal language & we strive to connect people across cultures through sustainable dining.

OUR SERVICES

Eco Friendly Restaurant Directory

Verified listings of sustainable restaurants, cafés and food trucks worldwide.

Travel Integration

Personalized dining recommendations for travelers based on destination and preferences.

Environmental Impact Insights

Reports showing how your dining choices reduce carbon emissions and support sustainability.

Community & Reviews

User driven ratings, reviews and an interactive map for shared sustainable experiences.

Local Producer Connections

A bridge between restaurants and local farmers or suppliers to strengthen communities.

Educational Content

Articles, guides & resources to raise awareness about sustainable food practices.

WHY CHOOSE US?

1. Verified Sustainability

Every restaurant and producer on our platform meets clear eco-friendly standards.

2. Smart and Seamless

AI-powered recommendations make sustainable dining simple, personalized, and enjoyable.

3. Global Yet Local

A worldwide platform that strengthens local farmers, communities, and cultures.

4. Trusted Canadian Innovation

Born in Vancouver, built with integrity, and driven by a mission for global impact.

5. More Than an App

A movement that transforms dining into meaningful action for people, communities, and the planet.
